JAPAN IS INTERESTED

The Eastern Question Becoming Quite Serious.

EUROPEAN AGGRESSION TO STOP.

The Idea of Joining China to Stop the Inroads Comes to the Front—Collision With England—China Demands the Germans to Evacuate Kiaochow—Latest on the Eastern Question.

WASHINGTON, Jan. 1.—A high state of public feeling in Japan over the complications of the far east centering in China is shown by the last press advices received here from Japan. That the government itself has an eye to the gravity of the question is shown by a statement of the prime minister made in the course of a reply to a delegation. He said:

"With affairs tending to dangerous developments as is now the case in the east we shall not hesitate to ask the diet for 30,000,000 yen or even 40,000,000 yen if necessary." This was only a short time before the premier was forced to resign because of the public feeling that the cabinet was too weak to deal with the descent of the European powers upon China and the probable dismemberment of the latter country.

The Jiji Shimpo, the most influential paper in Japan, contains a scathing arraignment of Germany's course, declaring the occupation of Kiaochow, shows that the laws and tenets of international morality have ceased to be anything more than specious pretence by European powers, and that the rule by which their conduct is really regulated is "the flesh of the weak is the food of the strong." After declaring that Germany has thrown off the mask and has taken the lead of western powers in a greedy struggle to devour China, the paper adds as to the attitude of Japan:

"The conflagration is on the other side of the river, but the river is a narrow one and the sparks may easily fly across. The lesson for Japan is that the country's security depends solely upon its strength to resist aggression, and that aggression has come almost to her own gates. It will not suffice that she should be merely on the defensive. To preserve what one has already, it is sometimes necessary to add more. A crisis in the Orient now confronts Japan, and her undivided strength must be devoted to guarding against the perils that menace her."

The Nichi Nichi Shimbun takes a similar view, declaring that it is part of the plan of encroachment of European nations upon the east. It adds: "Japan, that has the greatest interest at stake in these things, and the Japanese foreign office should lose no time in obtaining from Germany a clear expose of her purpose."

The Kokumini Shimbun says that Germany's action is a sequel to the three powers (Russia, Germany and France) interference with Japan's holding Port Arthur, after having taken that fortress and that as these powers are again in collusion Japan must diligently prepare herself for emergency.

The Nippon says the crisis calls for a resolute foreign policy by Japan, and avers that nothing tends to impair amity more than tame submission to insult and wrong. The course of Germany is arraigned as a flagrant violation of international law.

The Chuo Shinbun declares that the time for the partition of the Chinese empire has arrived and adds: "What shall Japan do? Shall she join in the scramble for pieces of the doomed state, or shall she oppose its partition? In such a crisis—the like of which has not occurred since the restoration—the portfolio of foreign affairs is in the hands of a man in whom the nation has no confidence."

The Tokio Shimpo takes the radical position that it is Japan's duty to succor China at this juncture, on the ground that the boasted civilization and Christianity of the western world is slowly trampling down right and justice in its descent upon the Orient.

Aside from the excited discussion of the problem in China, the Japanese press is mainly concerned in the country's extensive naval and military development. The expenditures on "armament expansion" this year will be 80,645,721 yen and next year 63,250,000 yen.

Brilliant field maneuvers have been executed by the two army corps of the north and the south in the presence of many foreign diplomats and military experts.

The battleship Yashima has just arrived from the English shipyards. She is the second of the big battleships added to Japan's new navy, the first being the Fuji. They are sister ships of 12,517 tons displacement, each of 20 knots speed and an armament and general appearance much like the United States battleship Indiana. The Yashima is the largest warship that ever passed the Suez canal and it was found necessary to unship the heavy guns and take off some of the outer armor to get her through the canal.

GERMANY CALLED DOWN.

China Demands the Evacuation of Kiaochow.

LONDON, Jan. 1.—According to a special dispatch from Shanghai a sudden stiffening has taken place in the attitude of the Tsung-Li-Yamen toward Germany, resulting in a demand for the evacuation of Kiaochow and leading to the belief that Great Britain is bringing pressure to bear upon Pekin.

A dispatch from St. Petersburg says that on Thursday Emperor Nicholas granted an audience to the Chinese minister plenipotentiary, Yang-Yu, who handed the czar a personal letter from the Emperor of China. It is reported there that the conversation turned on the proposed Chinese loan.

A dispatch to The Times from Hong-Kong says there is the greatest activity in the naval yards there, while profound secrecy is maintained. The movements of the British fleet and its whereabouts are not known at Hong-Kong.

COALITION PROBABLE.

Great Britain and Japan Thoroughly Understand One Another.

SAN FRANCISCO, Jan. 1.—Captain S. Sakurai, assistant chief naval constructor of the Japanese government, who is now in this city superintending the building of the cruiser Chitose at the Union Iron works, has made a statement concerning the feeling of the naval and military officers of Japan over the late actions of Germany and Russia with regard to the occupation of Chinese ports. He said:

"While, of course, I can say nothing on this subject officially, I am very well acquainted with the ideas of my brother officers and of the great mass of the middle and upper classes of my countrymen. We believe we are being treated shamefully and that some of the European nations, Russia particularly, are using us as if we were children."

"When flushed with victory and in a position to carry our arms still further into the territory of China and to demand by reason of our success any concessions we desired to ask for, it was Russia that stepped in and on the plea of peace and the welfare of all Europe, caused us to modify our demands and to be content with barren honors. And now Russia, taking advantage of the opening that our own soldiers have made possible, seeks for herself what she begged us not to take."

"I believe that a coalition between Great Britain and Japan in the present crisis is not only possible but highly probable. Our standing army has lately been increased by two divisions, bringing it to considerably over 300,000 men and we are now building and getting ready for sea with all possible dispatch 15 warships and 24 torpedo and gunboats."

"These, added to our already formidable and seasoned navy, form a fleet that may well be a disturbing element in the present plans of Russia and Germany."

"It will not take very much more manipulation on the part of these two nations to arouse a resentment in Japan that will find its voice in something more than words."

France's Secret Mission.

LONDON, Jan. 1.—A special dispatch from Paris says that M. Roume, head of French colonial office, starts on a secret mission to China on Sunday in connection with the crisis in the far east. The dispatch adds that a special military mission will start for China shortly.

A G. A. R. PRIEST'S FUNERAL.

Remarkable Obsequies at Notre Dame, Indiana.

SOUTH BEND, Ind., Jan. 1.—The funeral of the Very Rev. Father William Corby, C. S. O., at Notre Dame yesterday was the occasion for a great demonstration. There was a large attendance of distinguished Catholic churchmen and also many members of G. A. R. posts as well as private citizens. The funeral was held at 10 o'clock at the Church of the Sacred Heart, which was far too small to contain the crowd.

Right Rev. Joseph Rademacher, bishop of Fort Wayne, was chief celebrant of the pontifical requiem mass. The sermon was preached by the Very Rev. Father Henderson, editor of the Notre Dame Scholastic. The pallbearers were the Rev. J. O'Keefe, Watertown, Wis.; the Rev. P. Johannes, South Bend; the Rev. Timothy Maher, Notre Dame; the Rev. J. Rogers, Cincinnati; the Rev. J. Smith, Notre Dame, and the Rev. Father N. J. Stoffel, South Bend. The G. A. R. posts of this county also furnished an escort for the casket. The burial was at the Community cemetery.

NASHVILLE, Jan. 1.—Fire originating in the bakery of Pierce & Wilson on East Main street in Lebanon, 30 miles from Nashville, at midnight destroyed eight of the principal business houses in town. The losses aggregate \$75,000; insurance, \$70,000. The buildings destroyed were occupied by O. Green, grocer; Dodson & Freeman, hardware; T. N. Smithwick, bakery; J. L. Weir, clothing (two buildings); Cash Clothing company; A. T. Thompson, drugs; W. P. Lover, grocer; Main Street bakery, and E. F. Dooley, saloon.

FAMINE AND DEATH.

The Fate of Over Half a Million Cubans.

MOSTLY WOMEN AND CHILDREN.

Besides the Pangs of Famine, the Reconcentrados Are Suffering From Smallpox, Dysentery, Cholera, Etc.—Another Conspiracy Against Spanish Rule—An Important Engagement.

KEY WEST, Fla., Jan. 1.—Details have been received from Spanish sources of a conspiracy against Spanish rule said to have been discovered in the province of Pinar del Rio. It is now stated that 1,500 men employed in the fields of Clay, Brock & Company, tobacco growers, and who had been disarmed, conspired to join the insurgents. Their leaders have been imprisoned in Morro castle.

Christmas night there were riots similar to those which occurred at Havana, Matanzas and other towns. The demonstrations were intended as a protest against autonomy. At Matanzas crowds cheered for the United States, President McKinley and annexation.

A majority of the conservative majors have been removed from towns in the interior. They represent 75 per cent of the taxpayers.

A letter from an important insurgent chief says that about 150,000 insurgents and reconcentrados have died in western Cuba up to Santa Clara. He also expresses regret at the suffering endured by the insurgents in the field. Dr. Delfin calls attention to the Dietrio de La Marina to the necessity of sending about 50 physicians into the interior of the island provided with medicine chests and vaccine. This step, he says, is to save from certain death innumerable human beings who are dying of hunger and neglect. Dr. Delfin adds that over 500,000 persons, mostly children and women, have died of famine in the fields. It is not advisable, the Spanish say, to entrust the distribution of food and money to the reconcentrados.

Besides the pangs of famine, the reconcentrados are suffering from smallpox, dysentery, cholera, etc., which threatens extermination. Therefore Dr. Delfin says it is necessary to send medicines with the food and physicians.

It is reported that an important engagement occurred last Monday in the Mulata mountains, province of Pinar del Rio, and that large numbers were killed on both sides. One prominent insurgent was captured and brought to Havana, where he is imprisoned incommunicado.

SPANISH PAPERS' COMMENTS.

General Weyler's Protest Not Very Favorably Received.

MADRID, Jan. 1.—The Imparcial calls upon the government to "repel every action of the United States favoring intervention in Cuba," and adds: "There exists a widespread sentiment against the conduct of the United States, but we do not think General Weyler is the acceptable exponent thereof."

Continuing, The Imparcial criticizes the government for stopping telegrams referring to the general's protest to the queen regent against the wording of President McKinley's message to congress and expresses the opinion that it would have been to the government's interest not to hinder its publication.

The Tiempo is of the opinion that General Weyler's protest demonstrated lack of discipline in the Spanish army.

General Weyler and other generals were the guests of Senor Robledo last night. The newspapers comment upon this and hint at possible ill-results.

MADE A VALUABLE HAUL.

Mailbox Robbers Have Been Operating in Cleveland on a Large Scale.

CLEVELAND, Jan. 1.—Mailbox robbers have been operating in Cleveland on a large scale. It was reported yesterday that checks and drafts aggregating about \$50,000 were stolen from the mail boxes on Water street on the 16th inst. These checks were mailed by wholesale houses, and the thieves appear to have got them all.

Among the firms whose checks and drafts were taken are the following: Babcock, Hurd & Company, wholesale grocers; the Lockwood Taylor company, hardware; the Benton Myers company, drugs; William Edwards & Company, grocers; the William Bingham company, hardware; and J. Krauss & Sons, confectionery. About 20 other firms deposited checks in the mailbox that was robbed. A postoffice inspector has been at work on the case for several days and it is pretty definitely settled, it is said, that Richard O. Davis, who is under arrest in New York for robbing the mailboxes, did the job here.

CAN GERMANY DO IT?

A Young Man Objects to Being Dragged Back to Germany.

INDIANAPOLIS, Jan. 1.—Emperor William may have to send to this country to arrest Carl Fahndley, nephew of the wealthy millionaire, Frederick Fahndley merchant and banker of this city. Young Fahndley came here six years ago, when he was 14 years old, and is being educated under his uncle's guardianship. He has just received word from his mother in Germany that unless he returns at once to serve his time in the German army he will have to pay 600 marks a year as a fine and officers may be sent for him.

Young Fahndley went to the court to

take out naturalization papers, but found he could not until he becomes of age. The court further informed him that Emperor William could send the requisition papers and take him back to the Fatherland. Fahndley declares he will not return and will lay the matter before the president.

DISASTROUS SNOWSTORM.

Vast Amount of Damage Done in Pittsburgh and Allegheny.

PITTSBURGH, Jan. 1.—Pittsburgh and Allegheny experienced the most disastrous snowstorm, in point of damage to wires, buildings, traction lines, etc., in their history. The loss to the Bell Telephone company in the two cities alone will reach, it is estimated, an aggregate of \$85,000. The prostration of their wires in Indiana, Jefferson and Westmoreland counties, where the business is practically at a standstill, will run the total up to \$125,000. It will be weeks before perfect communication will be restored.

In this city the entire police and fire alarm wire systems are utterly useless. It is impossible to communicate with the police in many parts of the city, and for the next three or four days Pittsburgh will have to return to the olden time plan and in case of fire or other disaster arrangements have been made to ring the school bells and blow mill whistles to spread the alarm.

The traction companies were tied up almost completely for a good part of the day, the Duquesne branch of the Consolidated company being entirely abandoned after about 11 a. m. on account of the great number of telephone and telegraph poles, which were broken along Forbes street. That street, for nearly two miles, was a mass of broken poles and prostrate wires. A large force of men are at work endeavoring to clean the street for traffic. The loss to the traction companies is estimated at \$15,000.

A large number of accidents are reported and many horses were killed by coming in contact with live wires, but fortunately no human fatalities occurred. Nathan S. Eddy, assistant weather observer, however, may die from the effects of injuries received while taking the temperature and snowfall on top of the government gauge building to a roof 10 feet below and from there to another, lower down. His collarbone was broken and his skull fractured. The physicians say his case is very serious.

Among others injured were: Lee Campbell, a colored driver. The horse he was driving was instantly killed and Campbell was badly shocked. His condition is critical.

Joseph Daley, a telephone lineman, was shocked to insensibility and badly burned by a live wire coiling about his body; he may die.

John Gill, telephone lineman, was hurled 60 feet through a network of electric light wires and severely injured.

A number of others sustained slight injuries. The loss to the two cities can not be estimated at present, but it will reach away up into the thousands. More than 1,200 men and 375 teams are hard at work cleaning the streets.

Many of the telegraph wires east and west are down as a result of the heavy fall of snow. The reports show that the wires as far east as Altoona, on the Pennsylvania railroad, have succumbed to the weight of the snow and ice combined, and between some points not a single wire was left on the poles.

OVER A MILLION A MONTH.

Receipts and Expenditures of the Government For December.

WASHINGTON, Jan. 1.—The preliminary figures of the government receipts and expenditures issued yesterday show that the total receipts for the month of December amounted to \$39,646,698, and the expenditures, \$37,095,000 which leaves a surplus for the month of \$2,551,698. These figures, however, include the receipts and payments on account of the Union Pacific transfer. Independent of the Union Pacific account the surplus this month is \$1,836,494.

For the six months of the present fiscal year, exclusive of the Union Pacific payments, there is a deficit of \$44,865,000, but including the Pacific payments there is a surplus of \$95,434. The receipts from customs this month amount to \$11,660,788, against \$9,930,385 for December, 1896. The gain over last month is \$1,830,768. The December receipts from internal revenue amounted to \$14,342,928 as compared with \$13,104,828 for December, 1896. The gain in the internal revenue receipts over last month is \$1,238,129.

LANCASTER, O., Jan. 1.—A "fire-proof" safe in the paper and paint shop of Mr. Charles A. Scovel caught fire last night presumably from too close proximity to a hot stove, the wooden lining of the safe igniting first. The fire was discovered at 2:30 this morning by a neighbor who gave the alarm. All loss fully covered by insurance.

Durant's Last Days.

SAN FRANCISCO, Jan. 1.—Late yesterday afternoon the supreme court refused the application of attorneys for Theodore Durant for a certificate of probable cause submitted to that body. Durant was at once removed to the death cell to await the hour of his execution, which has been fixed for 10:30 a. m., Jan. 7.

THE FAILURES IN 1897

Smaller Than in Any Other Year Since 1892.

AGGREGATE OF ALL, \$180,000,000

Comparisons Made With Other Years. Half a Million More Men Employed Now Than Were a Year Ago—Iron Industry Improved—R. G. Dun & Company's Weekly Review of Trade.

NEW YORK, Jan. 1.—R. G. Dun & Company's weekly review of trade says: Failures for the year which closed last night have been smaller than in any other year since 1892, in number smaller than in any year except in 1895, and in average liabilities per failure smaller than in any other year during the last 23, except four. The aggregate of all failures, commercial and banking, was \$180,000,000, of which \$25,800,000 was in banking. In 13,360 commercial failures the amount of liabilities was \$154,800,000, of which \$89,000,000 was in manufacturing and \$73,700,000 in trading, with \$12,100,000 in brokerage and other commercial lines. The average of liabilities per failure was only \$11,589, and in 1892 only \$11,025 but only three years in the past 25 were rivals, 1888, with \$11,595; 1886, with \$11,631, and 1885 with \$11,078.

A new year opens with conditions radically different from those which prevailed a year ago. Great financial distrust existed then, but has passed away. After a whole year of entire freedom from disturbance or alarm, in which the country has paid heavy foreign indebtedness, taken and paid many millions for stocks sent from abroad, and accumulated credits against other countries represented by merchandise, balances more than \$320,000,000 in its favor for the past five months, with deferred exchanges for more than \$20,000,000 held by New York banks alone, while the great industries have been pushing their way into foreign markets with unprecedented success, the monetary situation is no longer a matter of anxiety. More than half a million men in a few states, according to official reports, are employed now who were idle a year ago, and the general advance in wages for those employed has gone far to restore the rates prevailing before the panic. The volume of business through clearing houses for the week, 14.2 per cent larger than in 1892, has for the month been 0.8 per cent larger than in that year, and in many industries and branches of business the latter months of this year have surpassed all records.

The iron industry has been greatly encouraged by increased demand during the past few weeks and while the slight improvement in pig iron at Pittsburgh has been maintained, notwithstanding the greatest output ever known, the new contracts for finished products have been unusual for the season. They include 30,000 tons steel rails to one eastern mill, 12,000 tons structural work for improvement at New York, alone with large operations at Chicago and other cities and greatly increased demand for manufacturing materials generally and especially for sheets.

Minor metals have been rather weak, with tin at 13.6 cents and copper at 10.87, in spite of large exports, while lead is quoted at 3.73 1-2 cents, and spelter at 8.85. The best Bessemer full weight tin plates are selling at \$3.05, against \$4.10 for foreign. No change in prices of coke appears, though the shipments were the largest for any week this year.

The cotton industry is halted by the question of wages, although a general reduction now seems possible. The manufacturers have been buying largely of material for worsted goods and their purchases have stimulated buying by wool manufacturers so that the wool markets are stronger, though without changes in quotations.

After the great excitement at Chicago wheat still goes out of the country as largely as before, Atlantic ports 3,550,788 bushels, flour included, against 1,542,540 last year, and from Pacific ports 1,712,625 bushels. In four weeks the Atlantic exports, flour included, have been 15,060,047 bushels, against 8,500,161 last year. Heavy western receipts are only reflecting temporary conditions in the Chicago market. But extraordinary exports of corn, 14,404,905 bushels, against 9,444,855 bushels in the four weeks last year, shows how sorely foreign markets are pushed by the increasing demand for breadstuffs. Wheat has declined five-eighths of a cent with the Chicago market and corn has meanwhile advanced three-fourths of a cent.

The cotton movement continues remarkably heavy, and yet the slight advance last week is maintained. The movement to date, although more than 7,000,000 bales have come into sight, scarcely supports the largest current estimates.

Failures for the week have been 395 in the United States, against 439 last year, and 21 in Canada, against 39 last year.

INDICATIONS—Threatening weather, with light snow on the lakes; colder; north-west gales.

The announcement that Senator Deboe would introduce a bill to divide Kentucky into two judicial districts has set the politicians to figuring on the new Judge for this end of the State. Hon. A. M. J. Cochran, of this city, Judge Denny, of Lexington, and Judge Holt, of Frankfort, are already spoken of and there are others, of course. We are for the Maysville man. Mr. Cochran is eminently well fitted for the place, and his friends would be glad to see him thus honored by the administration.

REPUBLICAN CRISIS.

Matthews' Resolution Defining Coin To Be Introduced by the Colorado Senator.

WASHINGTON, D. C., Dec. 30.—The reconvening of Congress on January 5th is anticipated with great apprehension by the Republicans. The attitude of the administration in regard to the currency question as laid down by the Secretary of the Treasury in his bill to further contract the currency, and to forever commit this country to the single gold standard, plainly threatens the speedy disruption of the Republican party.

The crucial test of party loyalty or fealty to an administration which proposes to violate one of the cardinal principles—the bimetallic plank—in the St. Louis platform, will come in the form of a joint resolution to be introduced by Senator Teller, of Colorado. It is no less important than what is best known as the old Stanley Matthews resolution, which declares the policy of the United States government to be to pay its debts in gold or silver at the option of the government.

The effect of this resolution is expected to be electrical. It will be immediately referred to the Finance Committee, and no time will be lost by that free silver body in reporting it back to the Senate. Then will come the final showing of hands by the bimetallic Senators and the parting of the ways. The coup d'etat will force Wolcott, Shoup, Hansbrough, Clark, Wilson, Carter and Warren to stand by the administration for the perpetuation of the single gold standard, or to break with it for good and all, and hold on to their constituencies who pledged them to the cause of bimetallicism without compromise.

Senator Teller has the Finance Committee so fixed as to report the Matthews resolution immediately back to the Senate. In view of the temper of the Senators above named in respect to the Senate itself, there is no question as to the result of this resolution. The poisoned chalice of the Gage currency prescription, which he thought to be so cunningly brewed for Congress, will be forced to the lips of its inventors, and McKinley must ignominiously back down from the position he has assumed on the currency question, or a Republican Senate will wreck his administration.

Laughing at Us.

(Louisville Dispatch Telegram.)

"Think of it," said Senator Money, of Mississippi. "A few months ago President McKinley announced a commission of able men to go abroad and advocate bimetallicism. The wisest statesmen of Europe listened courteously to the bright and brilliant Wolcott, to the suave and judicious Stevenson and to the eloquent Paine. All told of the earnestness of the Americans for bimetallicism, of the sincerity of the President in seeking to secure an international agreement. A little later and these grave statesmen of Europe take up their morning papers and read that Secretary Gage has submitted to the American Congress a bill to fix the gold standard more firmly, and this with the sanction of the President, who was supposed to be the ardent friend of bimetallicism. These statesmen of Europe will laugh at us. They will say we are making ourselves ridiculous in the eyes of the whole world."

PENSION ATTORNEYS.

Commissioner Evans Wants 'Em Abolished. Says They Are a Delusion and a Snare.

WASHINGTON, D. C., December 30.—The Commissioner of Pensions has under consideration a bill designed to abolish pension attorneys and to substitute Government attorneys to prosecute claims.

"The present system is all wrong," said Commissioner Evans to-day. "Years ago the Government should have taken this subject in hand and dealt directly with the pensioners, and not through attorneys. Senator Prichard expresses the situation very forcibly in a recent interview, when he admitted that there was considerable skull-duggery in this pension attorney business, and expressed the belief that the Government would do better by dealing directly with the veteran, and not through attorneys.

"First of all, under the supervision of the Government the liability to frauds would be reduced to a minimum. We would have direct control of the attorneys, whose business it would be to see that all honest claims were quickly and intelligently presented. If one of these attorneys failed to do his duty or was found incompetent it would be an easy matter to remove him."

Mr. Evans attributes the difference in the amounts paid different individuals for the same causes, to "sharp and unprincipled attorneys and incompetent medical examiners." This he declares to be the secret of many of the cases of fraud, and it was impossible under the law, to correct it. "There are cases," he said, "where the old soldier is illiterate, and a shrewd attorney prepares almost any kind of an affidavit he wants and directs the soldier to sign it. He does it, many times, unconscious of what it contains. These are only a few of the illustrations of the sharp practices the department unearths ever day. To have the system entirely under Government control would break up such things and redound to the good of the Government and the advantages of the old soldier."

Sky Scraper Drum Major.

John W. Vogel, Manager of "Darkest America," never comes without a novelty. The show alone is novelty enough for most people, for it contains the better elements of musical farce, farce comedy, drama, vaudeville, minstrelsy and comic opera, but Mr. Vogel was not satisfied until he acquired the most wonderful of human beings, Madison Johnson, Giant Drum Major, standing eight feet three in his stocking feet. Some idea of the size of this tremendous specimen of humanity may be formed from the following facts: Goliath, according to historical accounts, was but eight feet, two inches, and Johnson is one inch taller; his shoes measure twenty-four inches from heel to toe, weigh seven and one-half pounds each, minus the heel plates which are large size horse shoes; gloves can not be found to fit his hands; ordinary sized coat sleeves come to his elbows, and largest pattern trousers would serve him as knickerbockers; in short, Johnson is the tallest human being treading the earth, consequently the greatest living wonder. He is only nineteen years old at that. He may be seen in the spectacular street parade given by "Darkest America" next Wednesday.

MR. M. L. WILLIAMS has returned home from a business trip to Sistersville and Wheeling, W. Va. During his trip he met Captain Thos. Nolin of the steamer Ruth, and reports him well and very popular with the traveling public.

A PETITION containing 1,000 names protesting against the appointment of R. R. Perry as Postmaster at Winchester, has been sent to the Postoffice Department. Perry was recommended by Senator Deboe and County Chairman Hampton.

THE Carlisle correspondent of the Bourbon News says: "Miss Nannie Reed entertained a large party in honor of her visiting guests—Miss Bessie Wells, Maysville, Miss Pearl Downs, Lexington, Miss Maggie Piper, Hutchison, Miss Bettie Reed, Bramblett, and Miss Ella Reynolds, Jacktown—Tuesday night, and a most delightful evening was spent by all present."

GEORGETOWN (O.) Gazette: "Joseph Scott late of Huntington Township, deceased, left a will that gave his estate to his five sons, leaving out his two daughters. One of the daughters, Mrs. Fauth, who lived under the parental roof forty-two years, brought suit in the Common Pleas Court for work. The case was tried last week, and the jury gave her a verdict for \$1,104. The two daughters have also brought suit to set aside the will."

THE postoffice authorities have sent back to Sheriff Pfanz, of Louisville, several hundred notices to delinquent taxpayers notifying them to settle, which were printed on postal cards, and have instructed him that he must cease dunning in this style. Pfanz says he acts in accordance with the statutes, which say the notices must be printed on postal cards, and he doesn't know what to do in the matter.

BOURBON News: "The spectacular performance of 'America,' given at the opera house Thursday night by local talent under the direction of Miss Bogardus, was one of the prettiest entertainments ever seen in Paris, and many features of the performance won hearty applause. The large number of people in the cast, and the rush incident to getting a newspaper ready for press, precludes special mention of deserving features. The performance was witnessed by a large and well pleased audience."

January
Is the Great Bargain Month,

And when you read our offerings you can rely upon them being bargains in every sense of the word. In every department are odds and ends that must be weeded out. If your need is among them it won't be after you see the goods. Investigate our January sales—if you want to save money.

The Remnant Table.

Short pieces from our best line of Prints, Muslins, Wool Dress Goods and Silks, in good blouse lengths or enough for children's dresses, at just half price, sometimes less; all marked in plain figures and placed for easy inspection. People who have profited by our former January remnant sales won't need urging to come to this. People who are strangers to our remnant bargains shouldn't lose time in seeking an introduction. One end of the store in bargain attire, with the genius of economy presiding. Don't lose time—the first choice is the best choice.

GRECIAN ART ENTERTAINMENT PUBLIC SALE.

To Be Given January 14th For Benefit of the Y. M. C. A.—Men's Rally To-morrow Afternoon—Other Matters.

President I. M. Lane will have charge of the men's rally in the Y. M. C. A. parlors Sunday at 3 p. m. A special New Year's program has been arranged which is both appropriate and interesting. Splendid music and several brief talks. All men cordially invited.

Because of the funeral to-morrow afternoon of Master Samuel B. Oldham, who was a Junior member of the association, the boy's gospel rally has been deferred.

Miss Harriet W. Glascock, who is to arrange and give her Grecian art entertainment under the auspices of the Y. M. C. A. Women's Committee on January 14th, is in the city and will conduct the first rehearsal in the parlors of the association this afternoon at 2 o'clock.

The rooms are open as usual to-day and members and visitors are heartily welcomed.

Every friend of the association will be glad to know that General Secretary Canfield, at the unanimous request of the board, has consented to remain in charge of the local association until after the approaching State meeting in February.

Queer Relationship From This Double Wedding.

(New York World Special.)

COLUMBUS, IND., Dec. 30.—Herewith are photographs of parties to a phenomenal double wedding, by which father, daughter, brother and sister were married by the same ceremony, Justice W. W. Stader officiating. The parties to the wedding were Russell Debusk and Miss Ella Bevars, and William Bevars and Miss Alpha Debusk. Mrs. Debusk and William Bevars are brother and sister, and Russell Debusk is the father of Mrs. Bevars.

A queer and unusual relationship has resulted: Bevar's own sister is his mother-in-law, and his father-in-law is also his brother-in-law; Debusk's daughter becomes his sister-in-law; Mrs. Debusk is the step-mother and sister-in-law of Mrs. Bevars; Mrs. Bevars being her father's sister, is consequently an aunt to herself; Debusk being his daughter's brother, must necessarily be his own father— But this is getting too complicated.

Does His Heart Fail Him?

(Ashland News.)

Are the applicants for postmaster so near on an equality, or are they so near to Congressman Pugh, that his heart fails him when he undertakes to decide as to whom he will make happy by giving him the appointment? Is it for this reason he leaves it to the County Committee to decide who shall run Ashland's postoffice? Speak out in "meetin'," Sam.

Good Prices For Tobacco.

Flemingsburg Times-Democrat: "J. C. A. King has sold his fine barn of tobacco on the Maysville pike at a price which will bring him about \$2,000. Geo. Weddle has sold his little crop of one acre, raised in this city, to Wm. Styles, at 12c., and there will probably be 2,100 pounds of it, thus realizing about \$250 for one acre. The man who raised a good crop of the weed this year is "on easy street."

Free of Charge to Sufferers.

Cut this out and take it to your druggist and get a sample bottle free of Dr. King's New Discovery, for consumption, coughs and colds. They do not ask you to try before trying. This will show you the great merits of this truly wonderful remedy, and show you what can be accomplished by the regular size bottle. This is no experiment, and would be disastrous to the proprietors, did they not know it would invariably cure. It is guaranteed. Trial bottle free at J. J. Wood's drug store. Regular size, 50 cents and \$1.00.

MRS. ANNA MITCHELL.

Death Darkens Another Home at the Dawn of the New Year—A Sudden Summons.

Mrs. Anna Mitchell died about 6 o'clock this morning at her home 114 East Fifth street, of general debility. She had been complaining for two weeks, but was up and about her home last evening, and the sad news of her sudden death this morning came as a shock to her friends.

Deceased was about seventy years of age, and leaves two sons and one daughter,—Messrs. John and William Mitchell and Mrs. John A. Newell. Her husband, John A. Mitchell, has been dead about thirty years. Mrs. Mitchell was a Miss Crawford, sister of Captain George N. Crawford.

The funeral will occur Monday morning at the residence, Rev. I. P. Trotter officiating.

KNIGHTS OF ST. JOHN.

Members of the Local Commandery Enjoy a Banquet and Dance—The New Officers.

Commandery No. 89, Knights of St. John, installed the new officers Thursday evening, Sir Knight F. Devine acting as Master of Ceremonies, assisted by Captain C. T. Brown. After the installation exercises, the Knights with their invited guests and ladies were taken in charge by the entertainment committee and invited to regale themselves at a most sumptuous spread. When they had feasted to their heart's content, the orchestra struck up the lively tune, "There's a Hot Time in the Old Town To-night," and all the lads and lassies were soon keeping time with the music. They kept the ball rolling until 3 o'clock in the morning, then the gay party with a feeling of good will and wishing each other a happy New Year departed for their homes.

The officers installed are: President—George Schroeder. First Vice President—Henry Brown. Second Vice President—Wm. Cook. R. and C. Secretary—F. J. Lingenfelter. Financial Secretary—M. A. Swift. Treasurer—Joseph Gable. Board of Directors—F. Devine, Ed. Glenn, John Brisbols. Military Officers—Captain, M. A. Swift; First Lieutenant, Geo. Schroeder; Second Lieutenant, John Meyers.

Flemingsburg Assignment.

Vansant & Bro., dealers in groceries and dry goods at Flemingsburg, assigned Thursday evening to T. S. Andrews, Cashier of the Deposit Bank. The Vansant Brothers have been in business at that place for nearly thirty years and are the oldest and best-known merchants in Flemingsburg. Assets reported at \$11,500 and liabilities \$6,500. Principle creditors, Deposit Bank \$3,900, Cincinnati parties \$1,100.

GUARDS PUT ON.

More Trouble From Raiders Feared in Fleming County.

FLEMINGSBURG, Ky., Dec. 31.—The stockholders of the Maysville and Mt. Sterling pike and the Magistrates of this county failed to come to an agreement for the sale of the five miles of pike near here which has caused so much trouble. An offer of \$4,000 was made, but the officials wanted \$12,000. The Superintendent applied this morning for five guards, who are now doing duty at the gate, which has been repeatedly raided. Trouble is looked for.

Attention, Borrowers.

Miss Cooper and Mrs. Wood, of Helena, are visiting Miss Mattie Bell.

Alex. Fowler has moved into the property purchased of T. J. Black.

Dr. J. A. Reed and son, accompanied by Miss Mattie Forman, spent Thursday with the family of Judge Dora.

Leslie Brothers has sold his interest in the Maysville bus to Dud Jones, whose son John handles the reins.

Your correspondent is home from the illimitable West and finds a good many changes among the citizens of this staid old town.

Alfred Browning is building a residence in the east end on the Maysville pike. He has sold his interest in the home place and is occupying a part of the T. J. Winter house.

On next Monday we have the promise of a semi-daily mail between this place and Brooksville by which we will get the Cincinnati mail with daily papers at 11 o'clock on the morning of publication.

Your correspondent while West spent several days with our and your former fellow-citizen, W. W. Holton, who with his family wished to be remembered kindly to all their old friends in Kentucky. We found them situated one mile east of the City of Nevada, Mo., in a two-story frame house, large, convenient and comfortable on a level, beautiful tract of land. Every attention was given us, a ride around the lovely city, attendance at the M. E. Church, South, on Sunday (where we always feel at home), a view of the large asylum at that place. Many courtesies shown us by the citizens will serve to help us remember our visit with pleasure. Himself and good wife are, like the rest of us, showing the effects of old Father Time, but they have become contented in their Western home. Their son Hervey, who is a large man of 180 pounds, with his wife and child make their home with them.

How many young men and young women are cut off just as the future seems brightest and fullest of promise! They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and enriching the blood. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body—until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce's Golden Medical Discovery will cure 95 per cent. of all cases of consumption if used according to directions. It also cures all lingering coughs, bronchial and throat affections.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page Common Sense Medical Adviser, illustrated.

The city schools will resume Monday.

STARS AND STRIPES HAULED DOWN.

High-Handed Proceedings on the Part of the Mexican Government.

SAN DIEGO, Cal., Jan. 1.—The steamer Albion has just arrived from a month's cruise down the coast and her passengers tell of a rather high-handed proceeding at Clipperton island on the part of the Mexican gunboat Democrita, being no less than the hauling down of the stars and stripes by an armed force landed for the purpose and in spite of the protests of the men there employed, and the raising of the Mexican flag. The story told is as follows: "Our trip down the coast as far as Santo Domingo was void of any particular incident," said Roscoe Howard, one of the passengers. "On our return we took on a sailor at Acapulco, and from him I learned that he had been brought to that port by the Mexican gunboat Democrita from Clipperton island. He, with two other men, had been employed by a guano company to take charge of about 4,000 tons of guano that was stored in the warehouse on the island, and when they were landed there some nine months ago they hoisted the American flag and notified the secretary of the state of their action. On Dec. 14 the Democrita dropped anchor a short distance from the island and sent a boat's crew of marines to the island, but on attempting to land the boat was demolished against a coral reef and suffered considerable damage. Finally the marines were landed, and after an official ceremony the stars and stripes were hauled down from the flagpole that had been erected by the Americans and in its place the Mexican flag was hoisted.

"Having taken formal possession of the island, the marines withdrew and notified the men who remained on the island not to allow any one to take away the guano under penalty of violating the Mexican laws. The island is about 800 miles off the Mexican coast, almost due west of Acapulco, and is known as an atoll or coral reef. It is about four miles in circumference with a large sized stake in the center. Two palm trees constitute the sole vegetation on the island, which is made the home of millions of sea fowl. Thousands of tons of the richest guano is to be found on the island and represents its sole worth, apart from the value of the coral. When the marines landed to take possession of the island in behalf of Mexico they were fully armed and prepared to do battle with whatever resistance might be offered."

To Stop the Waste of Natural Gas.
INDIANAPOLIS, Jan. 1.—The state of Indiana, by the attorney general and the attorneys of counsel, in a long brief laid before the supreme court yesterday, its argument in support of the application of the state for an injunction to stop the waste of natural gas. The brief is in the suit of the state of Indiana against the Ohio Oil company, asking that that company be enjoined from wasting gas. It is the first case of the kind ever brought in Indiana. The lower court held that an injunction would not lie.

PARADES BY ARMED MEN.
They Will Be Prohibited Hereafter in the State of Illinois.

SPRINGFIELD, Ill., Jan. 1.—The law passed at the last session of the legislature prohibiting parading with arms and ammunition by all the independent military societies and organizations in this state will, in accordance with an order issued by Adjutant General Reese, be vigorously enforced after today. The law affects the Ancient Order of Hibernians and other Irish societies, the Polish Friendly society and several other organizations.

Under a strict construction of the law even members of semi-secret societies, such as Knights Templars and the Uniform Rank of the Knights of Pythias, can not parade at a funeral with side arms. In addition, organizations are also prohibited from wearing uniforms that in any way resemble those of state or federal troops. Under the law the governor is absolutely short of power to grant even temporary permission for exemption from its provisions.

Accidental Shooting.
DECATUR, O., Jan. 1.—Samuel Moore was cleaning a shot gun yesterday, when one of the barrels (not known to be loaded) was accidentally discharged tearing away all the fingers on his right hand. Four silver dollars which were in his trouser's pocket, prevented the shot from taking effect in the groin.

Robbers Apply the Torch.
LOUISVILLE, Jan. 1.—Crooks cracked the safe in Sam Thomas' store at Green Hill, Warren county, looted the place, securing valuable booty, and then burned the building. Four stores and several dwellings have been burned by incendiaries at Green Hill within the past few weeks.
